

Sherif Osama Hassan Mohamed

Address: Makkah - KSA

Education

- **Graduation year:** 2012
- **Department:** Electrical Power and Machine Department.
- **University:** Faculty of Engineering, Alexandria University, Egypt.
- **Cumulative Grade:** Good (73.19%)
- **Post-graduation:** Diploma in Power and Machine, Alexandria University.

Summary

Creative and detail-oriented Electrical Engineer with +10 years of experience testing and commissioning approved by SEC (Saudi Electricity Company)and operation and maintenance of power generation and experience in troubleshooting electrical problems and active supervision at EHV&HV networks for mega projects.

Experience

➤ **Company SEP (System House Factory for Electric Panels), ALGIHAZ, KSA 09/2024**

Job Title: Testing and commissioning Engineer

- Configuration, setting, testing and commissioning of Protection Relays.
- Familiar with protection relays: REF615, MICOM P142, MICOM P546, SIEMENS 7SJ84, SEL 487E, SIEMENS 7UT86, SHNEIDER & MICOM P643, ABB RED670, SIEMENS 7SD255
- Protection and Control schematic verification with field wiring, scheme function check, troubleshooting, CBF and BBP scheme.
- Familiar with Switchgear (ABB 380KV, ABB 110KV GIS, HYOSUNG 110KV, SIEMENS 110kV, 33KV, 13.8KV, ABB 13.8KV and ALFANAR 13.8KV, switch yard ss) .
- High Voltage Test for Medium Voltage SWGR.
- Preparation of test reports after testing & commissioning.
- Mechanical interlocks and electrical interlocks
- Trip circuit supervision verification
- Current transformer test by primary and secondary injection
- Voltage transformer test by secondary injection

➤ **Company: EKH (Egypt Kuwait Holding) – KAHRABA 03/2017- 09/2024**

Job Title: testing and commissioning Engineer

1- Testing and commissioning of the following:

- Testing of HV and MV switchgear
- Testing of circuit breaker (Timing test, Contact resistance test, Megger test)
- Testing of CT & VT (Turns ratio, Polarity check, IR test, Burden)
- Testing of Low voltage switchgear.
- Testing of protection Relays vamp (210,260,265) & Sepam (series 40,80,87T)

2- Operation and Maintenance

- WARTSILA Natural Gas power plant 104 MW
- Adjustment and configuration of protection Relays vmp (210,260,265) & Sepam (series 40,80)
- Operation and Maintenance of Natural Gas power plant
- Control Room Engineer (CRE), Monitor, supervise and control the power plant using a Scada system, maintaining all parameters within the OEM standards, to ensure better performance
- Review disturbance fault recorders, to isolate faulty feeder in the distribution network, and take corrective action.
- Participate in maintenance duties including troubleshooting, performing regular maintenance scheduled programs, and overhauling.
- Responsible and Authorized for Electrical Isolation of both Medium Voltage and Low Voltage
- Electrical equipment safely and competently the required maneuvering.
- LV switch boards, Motor control and auxiliary units' panel
- Provide technical training and support to technical staff.
- Create and follow up work orders, PTW, and risk assessment using ORCALE.

➤ Company: Electrotechnical power House

04/2015-02/2017

Job Title: Technical office Engineer

- Construction Supervision Experience in Low Voltage Distribution Networks.
- Reviewing, updating, modifying and approving electrical designs.
- Design the following components (MV Switchgear, Cables, CBs, Transformer, Busbars).
- Design of light current systems (Data System, Telephone System, Fire Alarm System Master Antenna System, Nurse Call System, CCTV, Access Door System)
- Design Low Voltage Distribution Networks and Design Outdoor Landscape Lighting.
- Receive a Report from Construction Department and Check the Electrical Completion of the Electrical Component and Power Cables.
- Design as built and Shop Drawings for the project.
- Prepare Request for Inspection Then Send to Main Contractor and Client.
- Review all financial Abstracts for the project.

Courses

- Power System Distribution ([Egyptian Engineers Syndicate Certificate](#))
- Testing and Maintenance of MV switchgear ([Schneider Electric CTC Certificate](#))
- Classic Control System and Introduction to Programmable Logic Control (P L C) ([ITC](#))
- Introduction to Programmable Logic Control (P L C) ([Alexandria Training center Certificate](#))
- Junior Management program (JMP) ([Certificate](#))
- How to Manage like a Pro (Attested by Dale Carnegie) ([Certificate](#))
- Finance for Non-Financials ([Certificate](#))

Training

- HYUNDAI HEAVY INDUSTRIES CO. BULGARIA
 - Maintenance of HHIB manufactured power transformers. (Personal training).
- Power Plant W34SG Operation and Maintenance at Site

- Western delta regional control Center Company.
- The Egyptian Company for power transmission, (WestDelta).

Computer Skills

- ETAP Software.
- AutoCAD Electrical Design.
- Lighting design and simulation with DIALUX.
- SIMATIC STEP 7- 300.
- ECODIAL.
- MATLAB toolboxes.
- Microsoft Office (Excel- Word-PowerPoint- Access).
- Operating systems: Windows XP / 7/ 8/10

Personal Details

- **Nationality:** Egyptian
- **Date of birth:** 17 April 1990
- **Religion:** Muslim
- **Marital Status:** Married
- **Military Service** Served
- **Language** English: Excellent
Arabic: Mother tongue

Personal Skills

- Self-managed and motivated.
- Excellent written/oral/interpersonal communication skills.
- Experience with data analysis, interpretation, and report writing.
- Able to work independently and as a part of teamwork.
- Able to handle several projects simultaneously and can shift priorities as needed.
- Extensive internet searching capabilities and research management experience.
- Ability to accomplish Tasks timely and with minimal supervision.
