

ZAHID JAMAL

Date of Birth: 10 Aug 1997
Nationality: India
Marital Status: Single
Current Address: Jubail, Eastern Province, KSA

OBJECTIVE

Highly skilled Electrical and Electronics Engineer with over 8+ years of experience seeking a challenging position in a dynamic organization. Committed to utilizing my technical expertise, problem-solving abilities, and strong analytical skills to contribute to the design, development, and implementation of innovative electrical and electronic systems. Seeking an opportunity to apply my knowledge in project management, quality assurance, and process optimization to drive efficiency and achieve optimal results. Dedicated to staying abreast of the latest industry trends and technologies, I aim to contribute to the growth and success of the organization while continuously enhancing my professional skills and contributing to the team's success.

AREA OF EXPERTISE

- | | | |
|-----------------------------|--------------------------------------|----------------------------------|
| - Construction & Inspection | - Scheduling & Coordination | - Project Execution & Inspection |
| - Testing Commissioning | - Erection | - Project data Records |
| - Site Supervision | - DCS System | - Manufacturers Data Records |
| - Project Management | - PLC & SCADA | - Site preparations |

| - Quality Control | - Estimation & Costing | - Time Management |
| - Inspection | - OHTL (Transmission & Distribution) | - Learning & Development |
| - Procurement | | |

EDUCATION

Rajiv Gandhi Proudyogiki University, Bhopal, India (2014 - 2018)

Bachelor's Degree (B.E) in Electrical & Electronics Engineering

CBSE Bord, India (2014)

Intermediate in Science

CBSE Bord, India (2012)

10th (Matric)

PROFESSIONAL PREFACE

- Experience in Project management, Erection, Commissioning of 18 MW CPP Project (Siemens Turbine, TDPS Alternator,).
- Hands on experience in Site Engineering, Project Management (Procurement, Scheduling, Coordination) of 132

kV Switchyard, 132 KVA Power Transformer erection.

- Generator Transformer, Unit Auxiliary Transformer, Generator Circuit Breaker, MV Switchgear, LV Switchgear, Power Cable (HV and LV).
- Hands on experience In Erection and installation of LT, HT, and MCC (motor-controlled Centre) panels.
- Good knowledge on starter like, VFD, DOL, RDOL Soft starter, and star delta starter.
- Adept in managing activities involving resource planning, in-process inspection, team building and co-ordination with internal/external departments.
- Finalization of Vendors, Procurement and Inspection Coordination's, Inspection of Electrical Equipment.
- Site preparations, Mobilization of Contractors for Electrical & Instrumentation works.
- Having hands on experience in DCS system, have completed certification course on PLC AND SCADA system and have good knowledge on Plc and Scada as well.
- Good knowledge in installation and calibration of Control valves and motorized valves.
- Hands on experience in Erection.
- Experience in electrical instruments including PT, PG, TT, TG, FT, Temperature Elements, RTD of both the 3 way & 2Way.
- Experience in calibration of HP heater, LP heater.
- Ensuring site personnel discipline at site as per EHS policy of company for safety.
- Experience in Erection of Control panels including AVR, TSP, RMP, DCS, and auxiliary power panels like AC, DC and UPS panels.
- Material Planning & Scheduling for every month based on availability of Manpower, their efficiency and site conditions in project.
- Highly Experienced in preparation of Costing & Estimation sheet of material according to the project schedule.
- Experience in preparation of BOQ, BOM, Estimation & Costing sheet.
- Experience in preparation of purchase order, job order and Estimation Costing sheet as well.
- Experience in loading and unloading of different materials related to the project requirement.
- Good exposure on all the tools and tackles equipment.
- Have experienced in firefighting domain as well.
- Hands on experienced skills like Fire Alarm, Fire Sprinkler Systems, Firefighting, Fire Extinguisher, Fire Pumps, fire, Fire Inspections.
- Good exposure to Mechanical execution works including IBR, Non-IBR and PRDS pipeline according to their isometric drawing and checking the quality.
- Cross checking verification of hooked-up instruments according to their P&ID drawing.
- Preparing compliance reports on the project site.
- Mobilization of workers, vehicles and equipment to the project site area.
- Managing the project in a very efficient and effective way.
- Excellent verbal and written communication skills.

PROFESSIONAL EXPERIENCE

Nassir Manea Wabran Co. (Saudi Aramco Partner)

Al Khobar, Saudi Arabia

Project: Offshore Fadhilli Gas Increment Program (PKG-6)

(May 2025 -Present)

Green Field & Brown field Upstream & Downstream Project

Customer (Nesma & Partner), Saudi Aramco Project

Electrical Engineer

- Experience in both Electrical Site Engineering & QC inspector (internal) in OHTL (overhead transmission line project 13.8 KV)
- Familiar with all the major standards of Saudi Aramco Engineering Standards (SAES) pertaining to the Electrical Engineering activities including OHTL, & Cabling system.
- Oversee the activity related to OHTL (Overhead transmission line 13.8 KV) throughout the project.
- Assistance in Quality assurance & Quality control team regarding RFI, NCR, Report submission, Final inspection for the recorded value for various systems running across the project.
- Major equipment handled includes MV cables (13.8 KV), LT & HT cables of various sizes, LT & HT panels, MV transformer Installation & execution.
- Trained certified on H2S gas, CSM, CSSP, ERP & HIP.
- Proficient knowledge on various Aramco gas wells & power supplying to gas wells.
- Proficient in Material inspection related to OHTL Project & request raise for RFI (Request for inspection) to Client QC.
- Oversee the installation & route finalization of cable & trunch system.
- Supervision in erection of Armless stainless-steel poles of various sizes includes (16.8 MTR, 18.3 MTR, 19.8 mtr,21.3 MTR).
- Oversee the termination of HT cables 13.8 KV.
- Supervision of various test of HT cable 13.8 KV, include IR test (insulation resistance), HIPOT test, windings resistance test, earthing pit test, recording the tested value & preparation of reports & requesting to raise the RFI.
- Testing of grounding rods & earthing pits installed in OHTL system and raising the RFI for the same.
- Hands on testing experience of transformer terminal Grid installation & its grounding & neutral testing.
- Cable trunch route finalization to various gas wells pad & its termination and loop checking.
- Good exposure to stringing activity of ACSR AW, (DRAKE) conductor & sag value specification, clipping & jumpers cable installation on conductors.
- Hands on experience in erection of various types of stainless-steel poles include (armless tangent, dead end riser, double dead-end riser, tap off poles, fuse disconnecter poles, auto recloser, angle pole of (15°,30°,60°90°) respectively.
- Hands on experience in Power outage of 13.8 KV power distribution line.
- Experience in preparation of energization package for OHTL (Overhead Transmission Line)
- Complying the violations & NCR.

Project: North Jafurah ,(CRPO 8 & 9), Green Field, PKG-4 (March 2024 – May 2025)

URMPP (unconventional resources maintains potential project Oil & Gas),

OHTL & Gas Wells.

Customer (SISCO), Saudi Aramco Project.

Electrical Engineer

- Experience in both Electrical Site Engineering & QC inspector (internal) in OHTL (overhead transmission line project 34.5 KV)
- Familiar with all the major standards of Saudi Aramco Engineering Standards (SAES) pertaining to the Electrical Engineering activities including OHTL, & Cabling system.
- Oversee the activity related to OHTL (Overhead transmission line 34.5 KV) throughout the project.
- Assistance in Quality assurance & Quality control team regarding RFI, NCR, Report submission, Final inspection for the recorded value for various systems running across the project.
- Major equipment handled includes MV cables (34.5 KV), LT & HT cables of various sizes, LT & HT panels, MV transformer Installation & execution.
- Trained certified on H2S gas, CSM, CSSP, ERP & HIP.
- Proficient knowledge on various Aramco gas wells & power supplying to gas wells.
- Proficient in Material inspection related to OHTL Project & request raise for RFI (Request for inspection) to Client QC.
- Oversee the installation & route finalization of cable & trench system.
- Supervision in erection of Armless stainless-steel poles of various sizes includes (16.8 MTR, 18.3 MTR, 19.8 mtr,21.3 MTR).
- Oversee the termination of HT cables 34.5 KV.
- Supervision of various test of HT cable 34.5 KV, include IR test (insulation resistance), HIPOT test, windings resistance test, earthing pit test, recording the tested value & preparation of reports & requesting to raise the RFI.
- Testing of grounding rods & earthing pits installed in OHTL system and raising the RFI for the same.
- Hands on testing experience of transformer terminal Grid installation & its grounding & neutral testing.
- Cable trench route finalization to various gas wells pad & its termination and loop checking.
- Good exposure to stringing activity of ACSR AW, (DRAKE) conductor & sag value specification, clipping & jumpers cable installation on conductors.
- Hands on experience in erection of various types of stainless-steel poles include (armless tangent, dead end riser, double dead-end riser, tap off poles, fuse disconnecter poles, auto recloser, angle pole of (15°,30°,60°90°) respectively.
- Hands on experience in Power outage of 34.5 KV power distribution line.
- Experience in preparation of energization package for OHTL (Overhead Transmission Line) & CP (Cathodic Protection)
- Complying the violations & NCR.

Dabur India Ltd.

(Sep 2022 – Jan 2024)

Indore, Madhya Pradesh, India

Electrical Site Engineer

- Project Planning, Monitoring Project Progress, Review of Project Schedule (MS project), Ensuring Cost Control within Budget and Planning for Smooth Cash Flow throughout the project etc. Foreseeing performance bottlenecks and taking corrective measures

- Review of Engineering Drawings like Plant Layout, Electrical single line Diagram, Cable sizing, Earthing system.
- Site preparations, Mobilization of Contractors for Electrical & lighting works.
- Cable laying for both LT & HT works which include both the HT & LT Panels
- Charging of PCC Panels and MCC panels along with checking the loops and end termination closely.
- Hands on experience in erection of both LT & HT panels along with installation of various PDB (Power Distribution Board).
- Closely monitoring & checking the various High Bay and LED Light fixtures installation and its circuit wiring.
- Hands on experience in material reconciliation and material controlling in a very smooth & efficient way.
- Experience in customer / client handling, meeting attending with the delegates teams from customer side in a very humble and efficient way.
- Hands on experience in project execution along with vendor or sub-contractor management.
- Hands on experience in cable tray size calculation, cable tray erection, MS support installation for cable trays and various size cables.
- Hands on experience in cable laying of various sizes along with its size calculation
- Hands on experience in earthing strips erection of various sizes along with the LT & HT panels body earthing installation.
- Hands on experience in megger checking of cables and earth pit installation.
- Hands on experience in High Mast light poles circuit and its lights fixtures installation of 150W light.
- Hands on experience in 2MVA transformer erection and its cable laying and termination.
- Experience in DPR (daily progress report) submission to the client.
- Hands on experience in making the measurement data and budget calculation of various installed/ erected panels scope of equipment and materials at project site. Also raising the bills for the installed materials and getting the approval sign for the various bill's payment.
- Good exposure in leading the site in a most descent way and maintaining the site discipline and decorum for the growth and reputation of the company.

Siemens India Ltd.

(Jan 2019 – Aug 2022)

Chhattisgarh & Gujarat, India

Electrical Site Engineer

- Project Planning, Monitoring Project Progress, Review of Project Schedule (MS project), Ensuring Cost Control within Budget and Planning for Smooth Cash Flow throughout the project etc.
- Review of Engineering Drawings like Plant Layout, Electrical single line Diagram, Cable sizing, Earthing system.
- Finalization of Vendors, Procurement and Inspection Coordination's, Inspection of Electrical Equipment and MDCC.
- Site preparations, Mobilization of Contractors for Electrical & Instrumentation works.
- Ensuring site personnel discipline at site as per EHS policy of company for safety.
- Erection and Commissioning of 18 MW Siemens Turbine with TDPS Alternator.
- Erection and Commissioning of Electrical equipment like Power and Distribution Transformers, HT Switchgear, LT Switchgear, HV Cables, LT cables, Cable Trays etc.
- Preparation of tender specifications, Cost Estimation, Bid Evaluation, Contract finalization, review of engineering.
- Project Planning, Monitoring Project Progress, Review of Project Schedule (MS project), Ensuring Cost Control within Budget and Planning for Smooth Cash Flow throughout the project etc. Foreseeing

performance bottlenecks and taking corrective measures

- Expedition for inspection of electrical equipment's for project at factory technical discussion for Drawing and GTP approval, Dispatch clearance etc.
- Site preparations, Mobilization of workers and vehicles.
- Ensuring site personnel discipline at site as per EHS policy of company for safety.
- Monitoring erection & commissioning of equipment.
- Periodical reporting to management and progress report preparation. Updating MS project progress.
- Attending project review meeting with Clients and Subcontractors.
- Preparation of Budget Deviation Report, Risk analysis and setting Gross Margin.
- Claim management, Risk management
- Project Planning, Project estimations, costing, Vendor Identification & management.
- Erection and Commissioning of Generator Transformer, Unit Auxiliary Transformer, Generator Circuit Breaker, IPBD, MV Switchgear, LV Switchgear, Power Cable Sizing Calculations (HV and LV).

Procurement:

- Coordinating procurement activities like Floating Enquiries to Vendors/ Sub Vendors, technical meeting with vendors, Getting Offers, Preparation of Purchase order & Cost Estimation, Vendor/Subcontractor Evaluation, Price Comparison, negotiation with vendors, Finalization of vendors as per contract requirement and Releasing Purchase Proposal etc.

CERTIFICATES & TRAININGS

- Successfully completed vocational training in BHEL from 10th August 2017 to 22nd August 2017.
- Completed Certification Courses "PLC and Scada"

COMPUTER SKILLS

- MS-Office Program
- Designing Software
- Social media

SOFT SKILLS

- Communication
- Creativity
- Planning
- Negotiation
- Adaptability
- Decision Making
- Teamwork
- Innovation
- Listening
- Flexibility
- Problem Solving
- Self-Management
