PROFESSIONAL SUMMARY

As a seasoned professional with a B.E in Instrumentation Engineer and a PGDM in Operational Management, I bring more than 9+ years of enriching expertise in Industrial Automation and Control Systems. Specializing in Electrical & Instrument design and testing, I bring a robust skill set in designing and implementing efficient control system. Skilled at working in a team or independently and effectively contribute to organization success by generation and implementing innovative ideas. An effective communicator with excellent relationship management skills & strong leadership, decision making problem solving and organizational abilities

SKILLS

- SmartPlant Instrumentation (SPI)
- Instrumentation Design & Detailed Engineering
- Automation Design Documents
- Installation & Commissioning
- Troubleshooting of Process Instruments
- Technical Support to Commissioning Engineers
- Client/Vendor/Supplier co-ordination
- After Sales & Service
- FAT/SAT
- Project Management
- Automation project management Planning.
- PLC, SCADA, HMI
- Site Management
- Enhancement, Quality & Cost Saving initiatives
- Cross functional team management

HARDWARE AND SOFTWARE PROFICIENCY

- **Hardware Tools:**
PLC (Allen Bradley, Siemens), **SCADA and HMI** (Allen Bradley, Siemens, Schneider)
- **Software Tools:**
RS Linx, CCW, Panel Builder, Panel View Component, RS-LOGIX500, Factory Talk view, Indusoft web studio, WinCC SCADA.

WORK HISTORY

Senior Engineer (Electrical & Instrumentation, Commissioning & Service)

Yara Environmental Technologies Pvt Ltd- Mumbai

06/2023 – Present.

- Providing scheduled related inputs to proposal team from enquiry stage and participation in all important meeting during bidding phase.
- Execution of project with kick off & internal meetings for understanding scope of project.
- Review P&ID, Prepare IO list, Panel Specification, BOQ, Cause & Effect, Instrument interlock, Alarm documents, Cable Schedule, Control System Architecture, Instrument Index Sheet etc. and maintain records for the same.
- Review electrical wiring diagram for approval.
- Visiting vendors place for Cold & Hot loop wiring test of Electrical panel & Instruments as per approved drawing & checking process logic as per interlock before panel is dispatched to site.
- Perform Loop Test, Software Test (PLC, HMI, SCADA) FAT, SAT.
- Travel to customers, suppliers and sites for meetings, site surveys for smooth commissioning.
- Installation & Commissioning of the Process Equipment and Control System.
- Providing technical support and troubleshooting for instrumentation systems, addressing issues promptly to minimize downtime.
- Responsible for Vendor development, negotiations, cost reduction as per project specification and monitoring actual project engineering/commissioning progress against planned schedule.
- Managing after sales & service department post commissioning, AMC, spare offers, and payment for the same.

- Suppliers - Selection of suitable suppliers of panel vendors, agree on technical scope/solution.
- Electrical Contractors - Assess technical competency, assign job as per the assessment, ensure safety and quality of work.
- Experience in Co-ordinating and Working in a multi-disciplinary engineering teams of people across Design, Procurement, Quality, Execution, Commissioning & After Sales Service.

Projects Handled:

Worked on almost around 15+ Projects below are some major projects.

- Valorsul (Municipal Waste to Energy plant) – Portugal.
- Stericycle (Bio-Medical waste treatment) – UK
- CCB Cement – Belgium
- Medcem Cement – Turkey
- TATA Steel – Angul, Odisha.
- Taho Pali (Municipal Waste to Energy plant) – Taiwan
- Sharjah Cement – U.A.E
- TSI & Sigma Thermal – U.S.A

Sales and Commissioning Associate (Maharashtra and Gujrat Region)

Siemens Ltd (Innovative Cell Department)– Mumbai

08/2022 – 06/2023

(Pay role Company: **Lobo Staffing Solutions Pvt Ltd**)

- Visiting client place for enquiries and solving queries related to project during pre-sales and post sales related activities.
- Participates in Loop Checking, Pre- and Post-commissioning, shut down, break down and start up activities. Performed calibrations, functional testing & verification of control applications.
- Visiting sites for Commissioning of the Process Equipment and Control System.
- Visiting vendors place to check Electrical Schematic drawing of panel & also Process Logic.
- Testing/Validating/Qualifying the CSV documents IQ and OQ as per the designed requirement for the projects. Coordinating the project related activities with client, vendor, and Process Engineers.
- Travel to customers, suppliers and sites for meetings, site surveys etc.

Electrical & Instrumentation Engineer

Nilsan Nishotech Systems Pvt Ltd – Mumbai

08/2019 – 07/2022

- Execution of projects, including kickoff meetings & internal meetings for understanding the scope of project.
- Review P&ID, Prepare IO list, Panel Specification, BOQ, Cause & Effect, Instrument interlock, Alarm documents, Cable Schedule, Control System Architecture, Instrument Index Sheet etc. and maintain records for the same.
- Perform Loop Test, Software Test (PLC, HMI, SCADA) FAT, SAT.
- Site surveys for completion of prerequisites required from client for smooth commissioning of project.
- Review electrical wiring diagram for approval before panel manufacturing.
- Visiting sites for Installation & Commissioning of the Process Equipment and Control System.
- Visiting vendors place for Cold & Hot loop wiring test of Electrical panel & Instruments as per approved drawing & checking process logic as per interlock before panel dispatched to site.
- Troubleshooting of field instruments during the checkout and commissioning process.
- Travel to customers, suppliers and sites for meetings, site surveys etc.
- Training shift engineers for plant operation, plant optimization, startup & trouble shooting.
- Suppliers - Selection of suitable suppliers of panel vendors, agree on technical scope/solution.

Projects Handled:

Worked on almost around 30 Projects below are some major projects.

- Biocon Biologics, Bangalore (Purified Water & Water for Injection System)
- Hindustan Unilever, Haridwar (Chlorination System)

- Zyduş Cadila, Ahmedabad (Pre-Treatment + ROEDI System)
- Biocon, Bangalore (Chromatography System)
- Hindustan Unilever, Bangladesh (CIP System)

Project Engineer

Multiway Automation Pvt Ltd – Mumbai

03/2017 - 07/2019

Rockwell Automation System Integrator

- Created process controls used in batching system required for steel industries on Rockwell Software.
- Participated in design specification review meetings, coordinating with inter-departmental teams to align ongoing efforts and overall business goals.
- Developed functional design specifications on Rockwell Software's as per SOP.
- Communicated complex technical specifications to non-technical people in easily comprehensible formats.
- Prepare and maintain record of Design document and Manual.
- Installation and Calibration of field instruments during commissioning process.
- Visiting sites for Commissioning and Troubleshooting.

Projects Handled

Handled around 15 various PLC based projects for Steel Industries, Ferro Alloys Plant and Power Plant that includes Raw Material handling, escalating bagging, furnace automation, and system handling for various clients in India and Overseas.

- TATA Steel, Odisha
- Prakash Industries, Chhattisgarh
- Electro steel Castings Ltd, West Bengal
- South African Ferro Alloys Ltd, Zambia
- Ram Paras Ferro Alloys, Iran
- Vedanta, Odisha

ACADEMICS

- | | |
|---|----------------|
| • PGDM: Operations Management | |
| Welingkars Institute of Management Development and Research | 06/2020 |
| • B.E: Instrumentation Engineering | 2016 |
| Watumull Institute of Electronics Engineering and Computer Technology | |
| • HSC Thakur College of Science and Commerce | 2011 |
| • S.S.C Cardinal Gracias High School | 2009 |

PERSONAL INFORMATION

- Date of Birth: 5th June 1993
- Passport No: B7181568 Validity: 23rd November 2033
- Nationality: Indian
- Interests: Cricket, Reading, Trekking, Travelling.
- Language: English, Hindi, Marathi.

DECLARATION

I hereby declare that the above information provided is true to best of my knowledge and belief.

Sarvesh Sharma (Mumbai, India)
